ELIOT WILL NOT TAKE POST—IT'S OFFICIAL

WASHINGTON, April 2.—Official announcement was made at the White House to-day that President Eliot of Harvard University has declined the ambassadorship to the Court of St. James.

Later it was announced that the place has been offered to former Vice-President Fairbanks.

LONDON, April 2.—Dr. Eliot's name was cheered in the House of Commons to-day. Speaking on a bill introduced to-day providing for the closing of drinking places on election day, Charles Henry Roberts quoted the opinion expressed on this subject by Dr. Eliot, and added that "we hope to see Dr. Eliot as United States Ambassador to this country." The remark was greeted with hearty cheers.

The Sunday American's Washington correspondent announced exclusively in the American that Dr. Eliot WOULD NOT accept the ambassadorship.

CHARGE POISON PLOT; WOMAN'S BODY EXHUMED

GARDNER, April 2.—District Attorney George S. Taft, the State police and the Worcester County detectives are trying to solve the mysterious death of Mrs. Bertha Miller of Baldwinsville. The body of the woman who died five months ago was exhumed yesterday. Her mother, Mrs. Mary Rogers, declares her daughter was poisoned.

Medical Examiner Edward S. Sawyer had Undertaker Rourk exhume the body from St. John's Cemetery. Dr. Sawyer performed an autopsy, and the viscera was sent to the Harvard Medical School for examination.

Mrs. Miller, who was the wife of Joseph Miller, died in the Miller's River Hospital at Winchendon on October 7, after being there six hours. The doctors were completely puzzled by the fatal malady.

That Mrs. Miller was suffering from ulcers of the liver was the opinion of Dr. D. H. Getchell of Baldwinsville, who had attended her.

Hardly had her daughter been placed in the tomb when Mrs. Rogers, the mother, began to express the suspicion that all was not as it should be. Finally, a few weeks ago, she made bold charges that her daughter was the victim of a poison plot, and she went to Constable H. H. Hammond of Baldwinsville. He investigated and then reported to District Attorney Taft. That official at once called in the Worcester County detective force and the State police.

District Attorney Taft, after having all the facts in the case presented to him along with the statements Mrs. Rogers and made, decided that the death of Mrs. Miller was of such nature as to warrant the most careful investigation.

ROOSEVELT SWAMPED BY HIGH WAVE

GIBRALTAR, April 2.—The liner Hamburg, bearing the Roosevelt party, arrived here this morning. Mr. Roosevelt and his son, Kermit, with others in the party, landed and visited the town.

The entire town turned out to welcome the ex-President of the United States, and their welcome was vociferous.

The American Consul, Richard L. Sprague, was on hand with carriages, and Mr. Roosevelt was quickly bundled into one of them.

He enjoyed everything immensely and frequently murmured "Bully!"

On the arrival of Colonel Roosevelt it was learned that he had a narrow escape from possible drowning at Ponta del Garda on Tuesday last.

United States Consul Greevy and Vice-Consul Nichols came to the side of the

HAMMERSTEIN—HE CANNOT PRODUCE "SALOME" HERE

SALOME STOPPED

Mayor Orders Hammerstein Not to Produce the Opera. Governor, Vicar-General Patterson, Bishop Lawrence and Prominent Clergymen Declare Performance During Holy Week a Sacrilege.

Mayor Hibbard to-day ordered Oscar Hammerstein, through his son Arthur, and through representatives of the Boston Theatre, not to produce Salome in Boston. Arrangements had been made to produce the opera, with Mary Garden as Salome, on next Thursday afternoon.

This action of the Mayor followed quickly in the train of a large number of protests from clergymen and others that reached his office in City Hall to-day.

Letters of protest against the production of the opera in Boston were written by Bishop William Lawrence, Governor Eben S. Draper and former Governor Curtis Guild, Jr. These letters were sent to Mr. Hammerstein at the Boston Theatre and opened by his son Arthur.

Bishop Lawrence says that Lindsey Morison of the Boston Theatre promised him that there would be no production of Salome in Boston.

Refers to Promise.

At the Mayor's office this statement was given out:

Mayor Hibbard to-day notified Messrs. Frohman and Harris, trustees of the Boston Theatre, that he was opposed to the presentation of "Salome" on Thursday next. He took this step because of the character of the protest made to him on the matter, because of his doubt as to the morality of the

DENY EDWARD HAS APOPLEXY

BERLIN, April 2.—A dispatch from Madrid printed in some of the Berlin newspapers to-day declares that King Edward has suffered a stroke of apoplexy. The stroke is said not to be severe. The King has been visiting King Alfonso at San Sebastian.

Another dispatch published in the Frankfurter Dispatch asserts King Edward has sustained a slight paralytic stroke at Biarritz.

LONDON, April 2.—A cablegram was received this afternoon from Colonel Davidson, the King's equerry, at Biarritz, denying in toto the rumors which were spread over the world this morning regarding His Majesty's sudden illness.

KILLED BY BIG TUB; 2 DYING

WORCESTER, April 2.—One man was killed and two of his companions are dying from fractured skulls to-day at the City Hospital, as the result of being struck by a cement bucket weighing nearly a ton while watching the grade crossing work on Madison street.

The dead man is Ignatz Rudnyk, thirty-six years old, living at No. 54 Gold street. Valentine Truss, thirty, same address, and Valentine Csari, thirty, of No. 35 Lamartine street, are near death. The dead man leaves a widow and six children.

All three have been employed four days a week at the Kubley Iron foundry.

PRESIDENT'S HORSE INJURED IN WRECK

WASHINGTON, April 2.—A car containing five horses intended for the White House stables was struck on a siding at Orange, Va., by a freight car running wild to-day. Bleistein, the sorrel riding horse belonging to the President, received a broken colt. The other horses were intended for Private Secretary Carpenter, Attorney-General Wickersham and Secretary of War Dickinson, and were slightly injured.

KING'S HOME ORDERED SOLD

C. F. King's fine home at No. 60 Powell street, Brookline, will be sold at public auction on April 14, under an order of Leo M. Friedman, trustee in bankruptcy.

Mr. King, who is now serving a sentence of ten to fourteen years in Charlestown Prison for larceny from his customers, bought the place from ex-Senator James H. Stone and paid about $50,000. There is a mortgage of about $15,000 on the property, but Mr. Friedman says that he believes it will bring at least $40,000 for the equities above all incumbrances. He is confident that there will be realized from the estate about $20,000 for division among the creditors. Mrs. King has lived in the house ever since King's flight to Europe and Ceylon.

COURT DISBARS EDWIN C. LEWIS

Edwin Cook Lewis, a prominent State street lawyer, residing in Newton, was today found guilty of unprofessional conduct and ordered disbarred from the courts of this State by Judge James B. Richardson of the Superior Court.

Obtaining money by false pretenses and mismanagement of real estate were two of the serious charges preferred.

SUFFRAGETTES MOB ASQUITH

LONDON, April 2.—A flying squadron of suffragettes bore down on Premier Asquith to-day while he was walking to the house of Artist Solomon in West End street to pose for his portrait. The premier saw them approaching and looked about for some place to flee, but saw no haven of refuge in sight.

Two of the women seized the premier by the arms, and while he struggled to free himself they importuned him to grant them some verbal assurance that he would use his influence to have equal rights granted women. In the din which the mob made no words which the premier uttered could be heard, although he was quite voluble for a few moments.

Word that the premier was being mobbed was carried to nearby police stations, but ere the constables arrived upon the scene Mr. Asquith had managed to free himself and dashed up the steps of Artist Solomon's house and disappeared within.

MELROSE WINS RACE UP COAST

Less than half an hour in time and five miles in distance separated the great steel steam colliers, Melrose and Malden, as they swept into Boston harbor to-day after an exciting race from Baltimore, but the Melrose was the victor.

Tuesday afternoon at 4 o'clock with practically the same cargo of over 7,000 tons of coal, the boats steamed away from Baltimore.

Wednesday morning at 6:30 they surged out of Chesapeake Bay into the Atlantic ocean on practically even terms. They came up the coast, stem and stern, one leading and then the other.

They passed Cape Cod at daybreak today, and at 8 this morning the observer at Hull sighted the Melrose. By 8:30 she passed Boston Light. Less than a half hour later the Malden plunged along by the light not five miles in the wake of the Melrose.

QUITS CASE AFTER CLASH WITH JUDGE

Compelled to apologize to Judge Bosson in the Chelsea Police Court for what the court ruled was an insult, Max Waldo Cohen, a Chelsea attorney, withdrew from the case being tried and left the court room. Cohen was attorney for the thirteen-year-old Freddie Perlera, charged with being a "delinquent child."

Judge Bosson asked the boy whether he took part in a certain break, whereupon Attorney Cohen shouted: "I protest against such a question. It is manifestly unfair and you have no business here."

"Do you intend to insult this court?" interrupted Judge Bosson. "The question is perfectly fair and the court will not allow the attorney to pass unnoticed."

CAMBRIDGE 'L' WAR IS OVER

The Cambridge subway station controversy came to an end to-day when Mayor W. C. Wardwell and officials of the Lynn & Boston reached an agreement. Mayor Wardwell, who has been fighting the street car company for two years, goes out of office to-morrow, the settlement of the long fight being his last important official act.

The Harvard Square station plan was approved by the Railroad Commission, but it turned down plans for stations at Central Square and Kendall Square. Under the agreement reached to-day the Elevated agrees to modifications which will prevent blocking of streets and provide loops for cars.

LIGHTING TRUSTS AFTER CITY CONTRACT

Will the Boston streets be lighted by gas or electricity for the next ten years.

The answer is up to Mayor Hibbard.

Contracts have been submitted by the Boston Consolidated Gas Company and the Edison Illuminating Company. Both have been demonstrating new lamps for street illumination during the past few months and both are anxious for the prestige that goes with the contract.

The Edison Illuminating Company will light the streets for $360,000 a year. The Boston Consolidated Gas Company proposition has not been made public by the Mayor.

Then, as his wife stood waiting to receive her customary kiss, the old man fell dead at her feet, overcome by a sudden attack of heart failure.

FIND LONG LOST BOY IN RIVER

Three miles from where he fell through the ice and was drowned last December the body of five-year-old Curtis Gould was to-day found floating in the Neponset River. For days after the son of Erving F. Gould of No. 12 Elliot street, Milton, disappeared the river was dragged and the woods searched and then the police were asked to look for kidnappers.

Not until to-day has the mystery of the child's disappearance been explained. Early last December he went out to play with a little companion. Later this boy wandered back home. He didn't know what had become of Curtis Gould. The child's tin sand bucket was found by the river bank back of his home, but his little companion said that the boy had gone toward the woods.

To-day John Lally, nineteen, and his brother George, seven, who were in a boat hunting for driftwood, saw the body near the Granite Avenue Bridge.

EX-PRINCIPAL TRIES SUICIDE

Howard G. Kingman of Wollaston, former principal of the Wollaston Grammar School, jumped from the Revere Beach ferryboat Dartmouth to-day and was rescued by men on the steamer, Engine 44. He was taken to the Tombs, where he will be examined as to his sanity.

Questioned by the harbor police if family troubles caused him to jump overboard, he replied: "Well, perhaps."

It was said in Wollaston to-day that he has been despondent on account of ill health and that he has been in a sanatorium twice in the past two years.

Mr. Kingman is about forty years old and has been married ten years. He has one daughter, Gladys, seven years old.

Kingman stepped over on the Dartmouth was within 200 feet of the Boston slip. He began swimming around in the water. The Dartmouth was stopped and deck hands started to lower a boat.

Engine No. 44, the steamer, was at her berth alongside Central Wharf with steam up as usual. Before the Dartmouth deck hands could get a boat down the frequent passenger, the swimming man. Boatman John Murphy went over the side with a line around his waist. Boatman D. J. Maloney held the other end. Murphy reached the swimming man just as the latter was weakening from exertion and the hook of the end carried under.

THIRD ARREST NEAR IN AMES $10,000 PLOT

Another arrest is expected to-day in connection with the threat to kill John Stanley Ames and his fiancee, Miss Nancy Pilly, and to dynamite "Langwater," the handsome home of the Ames family at North Easton, unless the young millionaire left $10,000 for the letter writers.

Although Albert L. Wells said that he conceived the plot, wrote the letter and then got his friend, James McKenna, to assist him, the police to-day expressed the belief that another young man had probably conceived the whole scheme.

The police have talked with Emil Conners, a young man who has been on the stage, to see if he could throw any light on the matter. Policeman Healy of North Easton was assigned to the case to-day, and he has received instructions to probe the matter to the bottom.

Mrs. John McKenna, the mother of one of the boys arrested, said to-day that her husband has worked for the Ames estate for fourteen years, and that her son is innocent of meaning to do any harm.

To Make an Example of Them.

"Mr. Ames told my husband that he was sorry that our boy was mixed up in the matter," said Mrs. McKenna, "but he said that he was determined to make an example of the boys so that it would prevent any similar attempts in the future. He said he knew Jim had been roped into the scheme by others, but that he ought to be punished.

"Jim" was bailed out by his family and went to work to-day in the stitching room of the shoe concern of Slater & Morrill of Braintree.

"My boy is innocent of intending to do any harm," continued Mrs. McKenna. "Wells has been running with Jim for some time, and it was Wells who put Jim up to this. But Jim never took the matter seriously. He thought it was a joke. At least that is what he told us.

"There is another young man behind Wells, though, and you may hear of him soon. I think I know who he is, but I do not care to say. I think this will be a lesson for Jim and that he will not forget it soon."

Read About Whitla Case.

Wells, aged sixteen, is in Taunton jail, held under $1,000 for the grand jury. McKenna, aged seventeen, is also held for the grand jury, but his family has bailed him out on $500 bonds.

The accounts of the Whitla kidnapping case and a Brockton moving picture show prompted them to their act, so the youths claim.

After having his imagination fired by reading of the apparent success of the kidnappers of Willie Whitla, and of the ease with which they forced the child's father to pay the demanded $10,000, Albert Wells visited a moving picture show in Brockton and saw pictured in vivid style "Black Hasdeu in New York." Then he wrote a note to his chum. Wells went the next day, wrote the "Black Hand" letter in the presence of his family, without their suspecting anything wrong.

Monday morning he mailed it in Brockton and the North Easton postmaster forwarded it to young Ames at his sister's home, at No. 506 Dartmouth street.

The young Harvard man was not seriously alarmed for his own safety, but the threats against his fiancee made him so nervous he hurried to the Pinkerton agency. There he went to the country home in North Easton, in the company of two detectives, who caught the two boys

steamship Hamburg for Colonel Roosevelt in an open boat. The sea was running high and only three passengers dared make the trip to shore. The open boats were put in tow of a launch and started for the dock when a tremendous wave swept over them, and they almost sank. In spite of the dangerous seas and the half swamped condition of the boat Colonel Roosevelt stood up in the small craft and waved his hat. At the same time the sailors band played the "Star Spangled Banner."

Just as the boat reached the gangway it was caught by a terrific sea and a wave ten feet high swept over it. Roosevelt went in the water to his waist.

Roosevelt laughed at the incident, but those who saw him make the daring trip and the lucky leap to the gangplank were frightened and in grave fear for his safety. Many of them believed that he took his life in his hands.

Mr. Roosevelt visited the second class and steerage quarters of the Hamburg yesterday afternoon and received an enthusiastic reception. Later the party repaired to the main saloon, where ices were served by the ship's stewards dressed up as Negroines and other fantastic characters. All the lights had been turned down, and the effect was weird. This entertainment was followed by a dance, at which Mr. Roosevelt danced with Miss Alice Roosevelt before withdrawing for the night Mr. Roosevelt appeared in the smoking room and chatted with teh passengers for twenty minutes.

The Hamburg, after a stay of a little more than three hours, left at 12:20 for Naples.

HEAR FILIPINO IN TARIFF PLEA

WASHINGTON, April 2.—Representative Moore of Pennsylvania made the first speech defending the Payne bill to-day in the House on the advantages of protection.

Commissioner-Resident Ocampo of the Philippines presented an unique figure when he began making an address to an American Congress. He said free trade between the United States and the Philippines would financially ruin his native and delay the day of independence.

He asked the privilege for his people of selling their goods free of tariff duties in the United States, but they want the privilege of trading articles coming from the United States. He approved that part of the Payne bill which allows a free importation of Philippine sugar to the amount of 300,000 tons per year and also tobacco.

BOSTON MUST PAY MORE FOR ITS ICE

The price of ice is to be raised in Boston soon.

The Boston Ice supply is practically controlled by the Boston Ice Company, which in turn is controlled by the American Ice Company, the National Ice Trust.

There are a few independent ice companies in Boston, of which the Dorchester Ice Company is perhaps the largest. But the trade handled by the independent companies is not large compared with the amount of business in the hands of the Boston Ice Company. The chief reasons advanced for the expected jump in cost of ice to the consumer are the mild Winter, short crops and increased freight charges.

AVOIDS CRASH BY DARING DRIVING

It was due to the quick action and clear-headedness of Patrick Norton, driver of Ladder 7, Meeting House Hill, Dorchester, that a serious accident was averted at Abbot and Harvard streets, Dorchester, last night.

Seeing a frightened horse attached to a buggy spring out from Abbot street straight in front of the ladder truck, which was coming down the Harvard street hill, Norton took a chance and, covering his horses into the sidewalk, swept by the buggy, the rear wheel breaking a few spokes from one of the wheels of the buggy.

Mrs. Dane discovered that they were together frequently, and watched them closely. Then she denounced her husband and told him that unless he gave up his friendship for Mrs. Proctor she would leave him and sue for a divorce.

MAYOR HIBBARD FORBIDS SALOME PRODUCTION HERE

Continued from First Page.

performance and furthermore because it was planned to make the presentation during the period of Holy Week.

Information was brought to the Mayor, among other things which influenced this step, that some think shows the promise was made by one of the representatives officers of the Boston Theatre that Mr. Hammerstein would not attempt to bring about the performance in this city.

Shortly after noon today the Mayor met Mr. Lovering of the Boston Theatre, Mr. Hammerstein's son, and another representative of the Hammerstein forces in his office, when he personally made the request that the intention to give this performance be abandoned. Before they left he said he hoped for their ready acquiescence to his request, and that it felt obliged to warn them that if they maintained their original intention to present this opera he would invoke such power as he possesses to stop the presentation.

After Arthur Hammerstein and his confreres had called on the Mayor they went to the State House, and had a short talk with Governor Draper. Young Mr. Hammerstein telegraphed all of the facts of the day's developments to his father in New York.

"I am waiting to hear from my father," he said. "I cannot say at this time what will be done."

Mary Garden left for Philadelphia today. Before going she talked to some friends about Salome.

"If Boston wants the opera," she was reported as saying, "it is ready to give it."

This afternoon Governor Draper addressed a letter to Oscar Hammerstein, requesting him not to produce "Salome" in Boston.

Attorney-General George A. Patterson of the Roman Catholic Archdiocese of Boston, also sent a vigorous protest against the local production of "Salome" to Mr. Hammerstein today.

Mayor Has Power to Stop Play.

The Mayor's power to stop the performance is given under chapter 494 of the acts of 1908, in which he and the Police Commissioner may prevent a performance upon the stage that they consider immoral or improper, or rescind the license of the theatre.

The Mayor declared today that from what he had heard of "Salome" as produced in Philadelphia and other places, he considered it improper, but that he would not make a definite decision until he had conferred with Mr. Hammerstein.

Bishop Lawrence Objects.

Bishop William Lawrence said today that he had written a letter some time ago on the subject of the presentation of "Salome" on the stage. The Bishop declined to say what the letter contained. It is presumed that he is opposed to "Salome" as a stage production.

The Rev. A. Z. Conrad, pastor of the Park Street Church, and chairman of the committee in charge of the late Chapman-Alexander revival in this city, declares the proposal to produce the opera here "is an outrage." The Rev. Herbert S. Johnson, the spirited pastor of the Warren Avenue Baptist Church, asserts that Mr. Hammerstein has insulted the people of Boston.

"Boston Should Protest."

Archdeacon S. G. Babcock of the Episcopal church in the diocese of Massachusetts, who holds a position next in responsibility to Bishop Lawrence, declares that Boston ought to protest against the bringing of "Salome" here next week.

Among all of the clergymen seen by reporters of the AMERICAN only one was found who seems to see the opera. He is the Rev. Ernest N. Bullock, rector of St. Matthew's Church of South Boston. He does not approve of the presentation of the opera here in Holy Week, however.

Here are the views of the clergymen and others:

Rev. Herbert S. Johnson, Warren Avenue Baptist Church:

Mr. Hammerstein has insulted the people of this city. He will not help grand opera by bringing "Salome" here. Boston is not the kind of a city which cares for "Salome." The degrading opera is not the standard this city wants. It should never be allowed here. In announcing his intention of bringing the opera here Mr. Hammerstein has shown an utter disregard for the wishes of the mass of the people. Of course, Mr. Hammerstein will not come here again.

Rev. A. Z. Conrad, Park Street Church:

It is outrageous. It is without exception the most unwarranted, unnecessary thing that could happen to Boston. Its suggestiveness is full of peril, and there is not one artistic feature to counteract its positively malignant influence.

Rev. Howard A. Bridgman, Editor Congregationalist:

"Salome" is a degrading opera. Its presentation in any city is an insult to that city. I am glad to join with other clergymen in protesting against the presentation of the opera in this city. It is an added insult to Boston that Mr. Hammerstein has selected Holy Week as the time to give this opera. It has a malignant influence on the public.

Rev. Thomas Van Ness, Second Church, Copley Square.

It is according to the way "Salome" is presented. Too much has been said about it, and this makes the opera more sensational than it really is. I have nothing further to say, as I do not wish to fan such a dangerously smouldering fire.

Rev. Daniel D. Addison, All Saints Church, Brookline.

The mere thought of the theme of the opera is sufficient to prevent any Christian from attending such a performance. It is very indiscreet of Mr. Hammerstein to present such an opera in this city, especially during Holy Week.

Archdeacon S. G. Babcock, Episcopal Diocese of Massachusetts:

The citizens of Boston and Christians as well ought to protest against the bringing of this opera to Boston. The religious associations of Holy Week, so dear to many, ought to prevail with theatrical managers and should induce them to postpone this opera indefinitely.

Rev. W. H. Falkner, St. Paul's Episcopal Church.

It is an outrage. To present "Salome" in this city is an insult to its decent, God-fearing, law-abiding residents. To present it during Holy Week is an added insult to Roman Catholics and Episcopalians. All should arise and protest against this opera coming here. Mr. Hammerstein has shown a lack of judgment that is very deplorable.

HIBBARD'S AUTHORITY FOR STOPPING "SALOME"

If at any time, under a license granted hereunder, there shall be given a theatrical exhibition, public show, public amusement or exhibition, any part of which, in the opinion of both the Mayor and the Police Commissioner, is obscene, immoral or tends to injure the morals of the community, and is not eliminated at the request of the Mayor, he may suspend the license for such particular representation.—Section 2, Chapter 494, Acts of 1908.

LOUD PROTESTS FROM CHURCH AND STATE

Oscar Hammerstein today received the following letters from Vicar-General Patterson, representing the Catholics; Rev. Dr. Gordon, pastor of the richest church in Boston, and Governor Draper:

From the Vicar-General.

Dear Sir—Learning from the morning papers that "Salome" is to be produced on Thursday next, I wish, in the name of the Catholics of Boston, to enter a formal protest against the performance. To produce "Salome" at any time outrages public decency; to produce it during Holy Week is doubly nefarious. Respectfully yours,

GEORGE J. PATTERSON, V. G.
April 2, 1909.

From Governor Draper.

Thursday Evening.

My Dear Mr. Hammerstein:

I have heard this evening that there is a possibility of Salome being presented by your company in Boston. I am one of your patrons, and I was much pleased when I heard you had decided not to produce Salome during your Boston engagement and I sincerely hope you will keep to your original purpose. Trusting that I have been misinformed as to your late intentions and that you will decide to adhere to your original intention I am, yours very truly,

ERBN S. DRAPER

From Dr. Gordon.

Old South Parsonage, Boylston street.
April 2, 1909.

Dear Mr. Hammerstein: I am grieved to hear that you intend to produce Salome in Boston. You cannot know what a revolt this will produce, otherwise you would not press the presentation. Broad-minded men who fully recognize the function of the theatre will turn from it in disgust if it is thus prostituted. This city may be, morally speaking, a sleeping lion, but assuredly it is a lion, and it will awaken next week.

Very truly yours,
GEORGE A. GORDON.

HAIR REMOVERS ARE DANGEROUS

Dr. Wertenbaker Says:—"Don't Use Poisonous Depilatories."

In treating superfluous hair, it is of vital importance that the agent to be employed should be absolutely non-poisonous, aseptic and germicidal, because if it is not so with frequent use it will produce eczema or blood poisoning. The trouble with the majority of ladies is that they don't do a little thinking for themselves. When an assertion is made by some unreliable concern they take it as gospel truths. They never consider the reliability, seldom do they question or ask for any substantiating proof that a preparation is non-poisonous. They seem to think that the bare word of the manufacturers is sufficient. To the contrary, ladies should be most particular in choosing a safe removerand bear first and repeller as the thorities know about it.

Dr. Wertenbaker, the prominent physician, says: "For several years I said to my patients, 'Don't use poisonous depilatories, because they are bound to do harm. I have found De Miracle to be absolutely non-poisonous, antiseptic and germicidal; therefore, on account of these qualities, it is distinctly beneficial to the skin and under no circumstances can it produce eczema or blood poisoning. I have used this preparation in my practice for a number of years, and find that the principle of its chemical and physiological action is correct. I consider it the only satisfactory method for the removal of superfluous hair."

Better take a doctor's advice. Don't be deceived with the false free treatments which are advertised so extensively in the newspapers. Remember, after you have used worthless concoctions it will be harder to remove the hair; therefore, how it better to investigate all hair removers first before you try any of them.

We will send you absolutely free, in plain sealed envelope, a 54 page booklet containing full information concerning the remarkable treatment, as well as testimonials of prominent physicians, surgeons, dermatologists, medical journals and the principal magazines. You should read this booklet before you try anything. It treats the subject exhaustively. Write to the DE MIRACLE CHEMICAL COMPANY, Desk F. 46, 1,000 Park avenue, New York, simply saying you want this booklet, and it will be mailed, sealed, at once

BABY'S ITCHING WAS INTOLERABLE

Girl of Six Months had Fearful Attack of Eczema—Spread All Over Her Face and Eyes Began to Swell—Scratched Till Blood Came—Relieved in a Night and

CURED BY CUTICURA AFTER LONG SUFFERING

"When my little girl was six months old I noticed small red spots on her right cheek. I did not pay any attention to them but finally the spots grew so large that I sent for the doctor who said it was ringworm. He prescribed an ointment which I used for two weeks, but instead of helping the eruption the ointment seemed to make it worse. Then I went to a second doctor who after examining the baby said it was eczema. He also gave me an ointment which did not help either. The disease in the meantime spread all over the face and the eyes began to swell. I became very anxious. The itching grew intolerable. I had to tie the baby's hands to the cradle to prevent her scratching. The cheeks were covered with blood and it was a terrible sight to see. I consulted doctors from September to December, but they were unable to cure the baby. I paid out from twenty to thirty dollars without relief.

"One of my friends told me of the Cuticura Remedies and I sent at once for a set which I began to use that evening. The next morning the baby's face was all white instead of red and you can imagine how surprised I was. I cannot find words enough to praise Cuticura and I do not know what would be to become of my baby only for it. I used the Cuticura Remedies until the eczema entirely disappeared. The child is now three years old and quite well. I used three cakes of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent and I never use any other soap. I always recommend them whenever there is a chance for doing so. I will send you one of her pictures which she had taken just after she was healed." Mrs. P. E. Gundelfinger, Ia., July 13, 1908.

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Chocolate Coated Pills (25c.), are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston.

MISS FULLER BRINGS STAGE NEW SCENERY

Miss Lois Fuller is back from Europe with some new ideas in stage setting that promise to revolutionize the scenery in the stores. Miss Fuller will introduce them at the new Boston Opera House.

Miss Fuller will supply the ballet of the new Boston house. She has fifty girls that she has been training in Paris for the work. Painted scenery is to be done away with and electric lights on living pictures on the stage is to take the place of the old-time scenery.

It is for perfecting this scheme that she has the big laboratory in Paris. Mme. Curie, who discovered uranium and radium and the ones that have been so much talked of of late years, is one of her sub-sides. So is Camille Flammarion. They are both interested in the wonderful discoveries the sprightly little woman has been making in her study of the chemistry of light and the application of light forces.

An opera house or theatre with its stage embellished with the scenery of Miss Fuller's kind has to be built expressly for the purpose. None of the old-fashioned houses would do. But to compensate for that she can carry ten thousand stage settings in a small trunk. She has a bundle of them to show the opera house people there. There are six thousand stage scenes in that bundle and she can carry them under her arm.

That is all she came over for this time—just to teach Americans something they do not know about light and what may be accomplished with it. She will return abroad a week from to-morrow. In June she will be back again and will bring her ballet girls with her.

It is a new idea in a ballet. The old-fashioned toe-dancing, simpering, skipping lady of uncertain age will not be the charmer in this new style of ballet. It will be arranged just as the singing part of an opera is arranged. One girl may dance for a single bar of the music. Another will dance a line or two. There will be dancing duets, trios and choruses. Each dancer will step that portion of the music for which she is particularly fitted by figure, by temperament, by ability. Just as the singers take their parts, sopranos, tenors, basses, so will the dancers of the new ballet go through with theirs.

EVELYN O'DONNELL, MELROSE GIRL IN RUNAWAY WEDDING

"It is all over but the cheering." That was the message that came to Mrs. James P. O'Donnell of No. 347 East Foster street, Melrose, announcing the romantic marriage of her daughter, Evelyn Cecile, to Grover Cleveland Nickerson of Boston at Providence.

The bride's mother was surprised but not displeased, except that she did not see the necessity of going to Providence to get married when they might just as well have been wedded at her home. The young couple left Melrose yesterday morning, he to go on a business trip and she to come to Boston. That was the way the mother understood it. Then she got the message.

The bride is a fine musician. The groom is a salesman for a lumber firm.

RICH NAHANT MAN WILL WED BOOKKEEPER

Charles D. Varr, chairman of the Board of Selectmen of wealthy Nahant and one of the leading business men of Lynn, is to marry his bookkeeper, Miss Florence G. Smith of Lynn soon after Easter.

The engagement has been kept a secret up to the time that Miss Smith blushingly admitted it at an engagement party she gave to a girls' literary club of the First Universalist Church of Lynn.

Mr. Vary is a widower of fifty years or so. He is junior member of the big hay and grain firm of Torrance & Vary. His residence at Little Nahant is one of the best in that town.

Miss Smith lives at No. 47 Estes street with her sister, Miss Catherine Smith, a teacher in the Parrott Street School. She is a brunette of winning manner and is prominent in both church and social life. For the past three years she has been bookkeeper for Torrance & Vary.

When Mr. Vary's wife died the natural sympathy which Miss Smith extended toward her employer increased their mere business acquaintance to friendship. Mr. Vary being a widower and Miss Smith an orphan, they were in position to appreciate each other's rather lonesome state.

Miss Smith has just given up her work as bookkeeper and is at home preparing for her wedding.

Mr. Vary has one son, Charles D. Vary, Jr., a student in a Lynn business college.

The efforts in this direction, however, are not confined to the boys alone, as much care will be taken of the schoolgirls who will tour the capitals of Europe. The BOSTON AMERICAN will spare no efforts in making the various trips of the greatest pleasure to the entrants.

Do you want to make one of these trips?

You can win one of these trips. It depends entirely and absolutely upon yourself.

All that is necessary for you to become a nominee is to make application by sending in one of the application blanks which appear in the Home and later editions of the AMERICAN daily; clip fifteen of the nomination blanks, get them signed by fifteen of your adult friends, men or women, and send them to the Around-the-World Editor of the BOSTON AMERICAN.

Qualify for the Travelogue.

That is all that is necessary up to date to qualify you for one of these magnificent trips. Not only this, but the importance of your name in the list of nominees makes you eligible to attend a splendid illustrated travelogue which the BOSTON AMERICAN is preparing to give in the near future in order to give the various entrants for the trips a foretaste of the delights in store for them.

Some of the beautiful scenery and sights that will be encountered by both the boys and the girls in the European and Asiatic countries and the many beautiful and wonderful sights to be seen in and about New York, Washington and Niagara Falls will be shown by moving pictures, and a competent lecturer will describe the progress of the tour, such as is being arranged for your delectation.

YOU have just as good a chance of being selected as has anyone else—probably better than anyone you know. Isn't it worth while working for? Look at the pictures of the boys and girls that are published every day in the BOSTON AMERICAN. Did you ever see a finer, cleaner, more intelligent crowd of school children than those that have entered for the various trips offered?

Will Print Your Pictures.

Every day the BOSTON AMERICAN prints the pictures of some of the entrants. If you become an entrant your picture will be published in the BOSTON AMERICAN. If it is not published in a day or two after you have sent it in it will have had it taken by the BOSTON AMERICAN staff photographer, do not worry. There are so many photographs that it will take some time to print them all. Your photograph will be reached in time, and you will see it in the BOSTON AMERICAN.

Write your names on photographs in sending them in. To prove how important this is, the BOSTON AMERICAN to-day publishes the photographs of two young ladies, which reached the Around-the-World Department without indication as to whom they belonged. Remember, that in sending photographs, whether accompanied by letter or not, ALWAYS write your name and address on the back plainly. Print it if possible.

Qualify at Once.

In the meantime, if you have not sent in your nomination blanks qualifying for these trips, DO IT NOW. You need not worry about an examination. There won't be any, and YOU ARE NOT TOO LATE.

Numerous letters are received by the Around-the-World Editor expressing the hope that applicants are not too late. Every one has an equal chance, no matter when the entry is made, as long as it is done before the nominations close. But keep this in mind, you schoolboys and schoolgirls of Metropolitan Boston, that the nomination may close at any time.

No date for the closing has been set, but ample time will be given the applicants to get their nomination blanks in, which is necessary before entering the list of eligibles.

Several letters have been received from entrants expressing delight at the prospect of a race, with the large number of applicants. Through it all rings the happy and spirited clang, "The more the merrier."

The BOSTON AMERICAN agrees with this sentiment. It is above all desirable that the most worthy of the schoolboys and schoolgirls of Metropolitan Boston be selected to carry the colors of this great city on the various trips.

The problem is to find the most worthy. The method by which the most worthy will be selected will be announced in due time, but keep this in mind, that the selection will be made in such a way that all of you who are regular attendants at school, and who have been vouched for by fifteen signers of their nomination blanks, will be eligible. Every one has an equal chance. NO ONE IS TOO POOR. The rich have no better chance to win in this magnificent offer than have the fatherless and the motherless pow schoolchildren.

These trips will be of the greatest educational value. The schoolboys and schoolgirls will learn much on these trips that will help them immensely in future life.

You cannot learn from books the things that travel teaches you—everyone concedes that.

These trips will teach the travelers that the world is not bounded by city lines. It will teach them that there "a world—and that many countries, many peoples, many customs, make it; that there are reasons for everything, and that, finally, there isn't any so good as their own country.

This is a most wonderful opportunity for you, schoolboys and schoolgirls of Metropolitan Boston. GRASP IT! It all lies open for YOU. If there is any point that you do not understand write to us. Let us know what it is that bothers you. In order to be absolutely fair, every point about this great offer must be thoroughly understood by every entrant, and the Around-the-World Editor will be only too glad to answer your queries.

Too much emphasis cannot be laid upon the requirement of writing your questions with your names and addresses plainly written; this holds true not only in writing letters but in making your applications and in sending in your nomination blanks. Some mistakes have been made, due to the fact that names have been signed in pencil and erased so that even the experts in the BOSTON AMERICAN office could not decipher them.

Write Names Plainly.

In writing these letters write on one side of the paper only and in every case with the address at the end. Also bear in mind to write your name and address plainly on the photographs when you send them in.

If you are a schoolboy or a schoolgirl—a regular pupil in a public, private or parochial school in Metropolitan Boston—you are eligible for one of these trips, provided you are fourteen years old or over. It does not matter what school you go to, whether it is a day school or an evening school, grammar school or high school, university or business college. So long as you are fourteen years old or over and a regular pupil of good standing in your classes in the Boston schools, you are eligible.

DRIVE THE MICROBES OF CATARRH FROM YOUR SYSTEM

Say to your druggist "I want Hyomei" (High-o-me), and you will have started the only sensible method to cure catarrh.

Saturating the stomach with vile drugs and obnoxious nostrums never cured catarrh. They don't reach the spot. Sprays and douches and the like may give temporary relief, but they never cure—they don't reach the spot.

In order to cure catarrh, you must reach the affected part, and you must reach it with something that, when passing over the entire inflamed and germ ridden membrane, will kill every catarrh germ along the route.

You can't cure catarrh without killing the catarrh germs, and you can't kill the germs unless you can get the killer where the germs are.

Hyomei is a killer of catarrh germs, because when you breathe it in, its antiseptic and germicide properties reach every nook and crevice of the mucous membrane, from the mouth and nose deep into the cells of the lungs.

Hyomei brings the Australian forests of pine and eucalyptus to your home. It is made of the active principles extracted from these trees.

No one who lives in or near these forests suffers from catarrh. No one who breathes in Hyomei, the real forest air of Australia, will have catarrh for long after the treatment starts.

If you want to cure catarrh, croup, bronchitis, coughs, colds, asthma, hay fever, or relieve consumption, try Hyomei (pronounced High-o-me), the common-sense cure—the cure that reaches the spot.

A complete Hyomei outfit, including a hard rubber inhaler, costs only $1.00, and extra bottles of Hyomei, if afterwards needed, cost but 50 cts. Guaranteed to cure, or money back. Sold in every town in America. Sold and guaranteed in Boston by Jaynes Drug Co.
